

# PAT VITAMINS

*Your Ingredient Source*

## PROBIOTICS

### **OVER 3000 STRAINS BANK:**

Lactobacillus, Bifidobacterium, Streptococcus thermophiles, Saccharomyces boulardii, probiotic derivatives and flavored powder, inactivated probiotics

### **TYPES:**

Balance intestinal flora, enhance immunity, children, anti-age, women, nutritional formulation foods, meal replacement

### **CUSTOMIZED BLENDS:**

Requirements for dairy, Beverages, Snacks, Health, Supplements, Pharmaceutical and Animal feed

### **PATENTED STRAINS:**

Lactobacillus plantarum N13, Pediococcus acidilactici CCFM7902, Lactobacillus rhamnosus CCFM0528, Lactobacillus plantarum CW006, Lactobacillus plantarum Lp90

### **QUALITY STANDARDS:**

CFDA, US FDA, EFSA

### **CERTIFICATIONS:**

NSF-Cgmp, FSSC 2200, Kosher, Halal, NOP, HACCP

## The benefits of ProBiotics

**Probiotics** are the helpful bacteria that live primarily in your gut and play a crucial role in your overall health by fighting pathogens and yeast that lead to a weakened immune system. Overall, probiotics protect the body from infections and allow the body to maintain homeostasis.

**Probiotics**, or beneficial gut microbes, influence many functions in your body. In addition to your immune health, researchers have found they affect your body weight, energy, nutrition and your brain, both psychologically and neurologically. Your microflora impacts the expression of your genes, which can have a powerful effect on your health. Probiotics benefit your health from head to toe. They are essential for a multitude of bodily functions, research suggests taking a probiotic supplement is as important as taking a daily vitamin.
